I have noticed this problem too(at first version). But I just simply(or lazily) copy the dll file (e.g.dbghelp.dll) from mdelfede's BUILD (e.g.http://www.ultimatepp.org/svnbuilds/upp-svn_mingw_SVN.95_1_i386.exe), and it works on my win32 Windows XP. so,....

I guess many people do the same thing as me.
