Hmmm, not sure why it wasn't working before but for reference, in WIN32 at least (Vista 64), the following code works

```
GUI_APP_MAIN
{
 const Vector<String>& cmdline = CommandLine();
 int argc = cmdline.GetCount();

 OpenWind prog;

 DUMP(argc);

 if(argc)
 {
 DUMP(cmdline[0]);
 prog.OpenS(cmdline[0]);
 }

 prog.Zoomable().Sizeable().Run();
}
```

Thanks.
