TeCNoYoTTa wrote on Mon, 20 April 2009 10:42hello All

i have putted an ImageCtrl in the background of an ArrayCtrl

the problem now is that when the SB moves the image be like this :S

so i want to know how can i know if SB moved to refresh the layout

or if there is any other solution

thanks in Advance

Not sure how you have done that, but it is perhaps not the right way.

You can use NoBackground to make ArrayCtrl transparent and then compose it over some background (e.g. ImageCtrl).

Mirek
