[snip]

Luigi, please study this example and ask questions immediately. Don't waste your time struggling alone!...

Wow... , I'm very impressed.

I'll study the example and then use the designer. I was unaware of CTRL-T key (I opened the .lay file with a text editor).

Next time I'll post something made with the designer to show you that I am studying seriously and that your lecture are very useful.

Thanks again,
Luigi
