Hi,

this time just a few corrections, partially not done with the last ones and additionally in
ide/Core/Host.cpp:

line 217, change to

```
cmdline = LinuxHostConsole + " sh " + script
```

this uses sh instead of bash like I suggested in this topic
<http://www.ultimatepp.org/forum/index.php?t=msg&th=4340&start=0&>

lines 305-307, change to

```
#ifdef PLATFORM_FREEBSD  
cfg.Add("FREEBSD");  
#endif
```

Matthias
