## Subject: Cross Compile to ARM via ToolChain Posted by d\_th on Tue, 19 May 2009 22:44:57 GMT

View Forum Message <> Reply to Message

Hi,

i try to compile some simple Code from examples via an existing Tool chain, for an ARM System, on an Debian Etch PC.

I ask many People in this Board, have a lot of help but it wouldn't work.

In the upload file i give you my BuildMethod File and the error log.

I do not understand how to set the right options for compile.

Thanks for your Help!

Dieter
