Subject: Re: Google Translator Posted by Didier on Wed, 27 May 2009 19:04:03 GMT View Forum Message <> Reply to Message

Hi,

I think Google Translator can be very intersting.

For example how about creating a default translation for an app (if the language is not available ) by using Google Translator facility ??

I don't time for this right now but some other person may have it in the future.
