Do you really think that translating the keywords will make it much easier for beginners? I think not.

- ) Technically, a preprocessor that replaces all the keywords in one pass is a simple possibility.
- ) You could play around and test your ideas with a C interpreter. There should be plenty around.
- ) There are many programs for teaching programming:

<http://scratch.mit.edu/>

<http://wiki.laptop.org/go/Etoys>

...
