koldo wrote on Mon, 01 June 2009 14:57Hello tojocky

The "Use HTTP proxy" option is checked.

.....  
Any ideas?

Best regards  
Koldo

Maybe in proxy server setting is:

1. username and password. I didn't implemented yet. But if is need I will add for you!
2. filter by specific protocols (ex: Mozilla, IE or other)

Over Ideas I have not.
