koldo wrote on Mon, 01 June 2009 14:57Hello tojocky

The "Use HTTP proxy" option is checked.
....
Any ideas?

Best regards
Koldo

Maybe in proxy server setting is:
1. username and password. I didn't implemented yet. But if is need I will add for you!
2. filter by specific protocols (ex: Mozila, IE or other)

Over Ideas I have not.
