I have seen that in TabBar.upp are included references to files FileTabs.cpp and FileTabs.h., but they are not in TabBar folder.

Also in TabBar.h there is a #include "FileTabs.h"

Other thing to update or delete is TabBarTest, as function .Add() seems to be changed.

Best regards

Koldo

Sorry about that. Bit of a cock-up, I forgot to add the files.

This is fixed in revision 1280.
