koldo wrote on Wed, 10 June 2009 10:53Hello tojocky

This is the stdint.h linked in Wikipedia that works for me:

<http://msinttypes.googlecode.com/svn/trunk/stdint.h>

Just copy it to a Visual C include folder and the compiler will have to find it.

This way you will not have compiling problems because of

```
#include <stdint.h>
```

inserted in XlsLib sources.

Best regards

Koldo

Thank you Koldo! worked when copied in folder:

C:\Program Files\Microsoft Visual Studio 9.0\VC\include

Good job!
