Still seems to say 1154.

Jeremy

IIRC the upp site is synced at midnight, so you have to wait for this update.

Actually, process starts at 2:00 am (central european time).

Mirek
You'll have to wait until tomorrow

Well, it is true that such delay is confusing, I will think about it.

Obviously, the simplest thing to do is to delay the annoucments over night (after updated website).

Mirek
