Hello Mirek

- One thing I would like is to have a documentation full copy in one file. It would be easy to handle and print.

- Other thing we have been talking about is to have a clear "Contents". Through "Contents" it is:

1. Easier to look for info

2. We can include also subjects to be included, so it would be easier for new documentators to choose in which area they can help

- Mirek, Please do a "Contents" with areas now documented and not documented. After that ask the people to choose what they want to document. We have there a good "Contents" sample in <http://www.ultimatepp.org/forum/index.php?t=msg&goto=21689&>.

Just move it on

Best regards

Koldo
