Out of curiosity, I tried to redraw the TheIDE logo.

I'm not sure it's good, actually I'm not sure it's even better than the current one, but I think it's probably at least worth posting, so here it is.

I think it's cleaner and a bit more pleasing to eye, but whether that's good for TheIDE, I'm not sure. (and I'm too lazy to try to build the one with my icon and use it for while)

I'm not an artist, so sorry if it's bad, just dismiss it then
