Hi,
since last SVN update (now at 1434) the IDE editor and output window show strange font (the width between the chars is too big).
Please see picture:

Please, can somebody look at (my OS is Windows 2000 english).

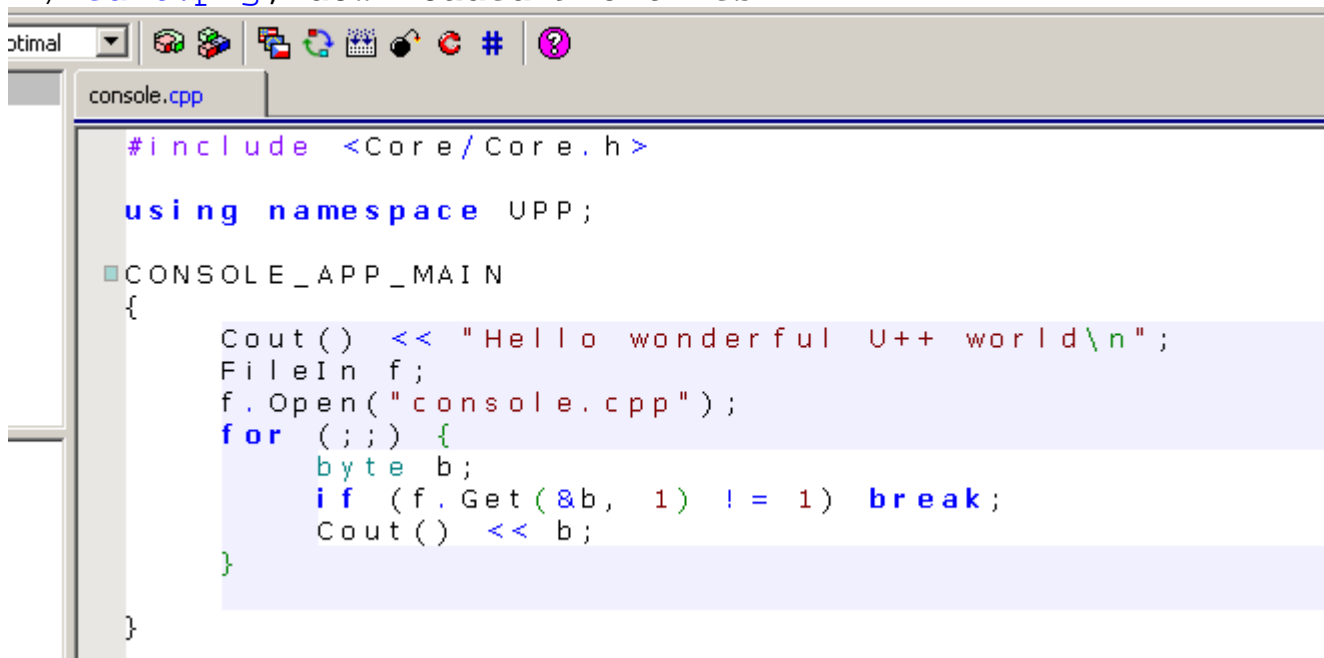

Another small issue, but I ever stumble across is in the about dialog.
It says Copyright (C) 1999-2008 Ultimate++ team, should be 2009

Thanks for looking, and keep up the good job, Mirek.

Hans

```
console.cpp
#include <Core/Core.h>
using namespace UPP;
■ CONSOLE_APP_MAIN
{
    Cout() << "Hello wonderful U++ world\n";
    FileIn f;
    f.Open("console.cpp");
    for (;;) {
        byte b;
        if (f.Get(&b, 1) != 1) break;
        Cout() << b;
    }
}
```
