hans wrote on Sat, 18 July 2009 10:33Hi,
since last SVN update (now at 1434) the IDE editor and output window show strange font (the width between the chars is too big).
Please see picture:

Please, can somebody look at (my OS is Windows 2000 english).

Another small issue, but I ever stumble across is in the about dialog.
It says Copyright (C) 1999-2008 Ultimate++ team, should be 2009

Thanks for looking, and keep up the good job, Mirek.

Hans

It is because of small bug in font serialization, most likely you have Arial or StdFont set now. Go to Environment and set Courier.
