Very nice linux scripts.

Thank you! I was build svn sources for ubuntu 9.04, architecture i386.

But I think that will be glad show errors more detailed in special when check if executable files exists:

```
$vasiable = "'which &parameter'"
```

With respect, Ion Lupascu

P.S. I can upload svn builds for ubuntu 9.04 i386.
I waiting for accept!
