Hello Didier

Perhaps this is something close to:

COMPARE (REPETITION , REPETITION)

Patterns:

1. REPET
2. E
3. I
4. TION

REPETITION = 1+3+4

REPETITION = 1+2+4

I have seen two interesting papers from Colin Percival (second is his PhD Thesis). This is if we have an insane interest in this area

- <http://www.daemonology.net/papers/bsdifff.pdf>

- <http://www.daemonology.net/papers/thesis.pdf>

Best regards

Koldo
