
Subject: About the automated build svn U++ 1469 on WinXP of Chinese version
Posted by [kasome](#) on Mon, 03 Aug 2009 06:59:33 GMT

[View Forum Message](#) <> [Reply to Message](#)

After install "upp-win32-1469.exe" downloaded from
<http://code.google.com/p/upp-mirror/downloads/list>,
i run the theide.exe and see as the following picture

Position of some word is incorrect, and all droplist widget can't be used.

and i found the problem is happen after svn U++ 1362(e.g."upp-win32-1362.exe" works fine).
My OS is Windows XP sp2, Chinese version.

But when i install "upp-win32-1469.exe" on the Windows XP of English version, there is no such
problem.

I hope someone can fix the problem.
