[View Forum Message](#) <> [Reply to Message](#)

```
void GetStdFontSys(String& name, int& height)
{
#ifdef PLATFORM_WINCE
    name = "Arial";
    height = 10;
#else
    NONCLIENTMETRICS ncm;
    ncm.cbSize = sizeof(ncm);
    ::SystemParametersInfo(SPI_GETNONCLIENTMETRICS, sizeof(ncm), &ncm, 0);
    name = ncm.lfMenuFont.lfFaceName;
    height = abs((int)ncm.lfMenuFont.lfHeight);
#endif
    DUMP(name);
    DUMP(height);
}
```

Please remove all other logs (or reload sources).

No need to perform so many tests, incorrect chinese run is enough.

Mirek
