Subject: Get number of displayed rows in gridctrl
Posted by darthspawn on Tue, 08 Sep 2009 13:55:36 GMT

Hello, it's me again

There is the possibility to have the number of the displayed rows? (for example, if I do a resize of my window, a GridCtrl of 30 rows was resized and is possible see only 20 rows)

I need to do an automatic centering when I do a resize. Thanks!

Sam
