Subject: ArrayCtrl - how to set tooltips? [BY DERIVING...]
Posted by tlawrenc on Fri, 07 Apr 2006 22:32:34 GMT

Hi all,

I have searched the forums for any way to get tooltips from individual rows in the array structure(not a single tip for the whole array), but have not been able to find out how to do so. If this is possible, can anyone please enlighten me on how to go about doing this?

Thanks
