I see that this bug is not corrected.

It is persist in ubuntu 9.04 too!

tojocky wrote on Mon, 03 August 2009 11:43Hello All,
Very interesting project.. by I thing that have a little bag.

This bug i produced on win32 windows xp os with the latest svn repository. When I unmark and after then mark Windows Menu button from Docking window Manager form, The buttons of the docking windows was positioned wrong.
