I have never heard of that function and I think I have not used that function. the source code of that package has only some 60 lines of code.

X up-right directly and then some files come out.

but if I keep the filename no Chinese word, the log files will not come out.

Hope I have thrown light on it.

Regards, LeiMing

edit:

now I also upload the exe and logs. please feel free to delete it to save space after usage.
