Hello Mirek

Just a proposal. The addition is under the ____:

```
String AppendFileName(const String& path, const char *fileName) {  
    String result = path;                     NEW                      
    if(result.GetLength() && *result.Last() != DIR_SEP && *fileName != DIR_SEP)  
        result += DIR_SEP;  
    result += fileName;  
    return result;  
}
```

Best regards
Koldo
