Hello,

with the line

```
arr.AddColumn("Avail" "Avail?", 4).Ctrls<Option>();
```

I've a nice TWO state option button in a coloumn of the arrayctrl. But I would like a THREE state option button.

I guess I must use - ThreeState(true) - somewhere.

I have put it in all position in the previous line, for example:

```
arr.AddColumn("Avail" "Avail?", 4).Ctrls<Option>().ThreeState(true);
```

but with no success. Any idea?

Thanks

Luigi
