i tried it now myself, downloading the TDM current release
from

<http://www.tdragon.net/recentgcc/>

or direct link

[http://sourceforge.net/projects/tdm-gcc/files/TDM-MinGW%20In
staller/1.908.0/tdm-mingw-1.908.0-4.4.1-2.exe/download](http://sourceforge.net/projects/tdm-gcc/files/TDM-MinGW%20Installer/1.908.0/tdm-mingw-1.908.0-4.4.1-2.exe/download)

and it works fine without crash
thanks, i'll be using TDM gcc now
