Here is the Boost 1.41.0 package that is needed by the ReportGenerator.

NB: I changed the name of the package so you need to update the dependency in the ReportGenerator package

I managed to pack it just limit

Hi Didier,

I managed to my best to correct the dependency but I continue to get complain from compiler. Please let me ask you to post the entire stuff report+test+boost already tested and working .

Thank you for your patience,  
Luigi
