Hello Sergey

Quote:How can I insert translate of documentations into site www.ultimatepp.org?

This is incredibly easy (so incredible that this have been repeated some times in Forum). Just add T++ docs in uppweb package and link them to T++ docs that do appear in main web.

Quote:How to insert button to site to switch to russian (if avialable) I think it will be interesting not only for russians...

This is one way. For example you want to put a translated "Overview" page. The steps are:

- Copy original T++ "Overview" page into other called the same but with your language (instead of EN-US)
- Translate it
- Edit the original "Overview" page adding a nice link to your page, like "Russian >>"
- Edit your Russian "Overview" page adding a nice link to the original EN_US page, like "English >>"

...

Thats all !

Is it not easy ?

Best regards

Koldo
