sergeynikitin wrote on Mon, 25 January 2010 16:24 Another question, I asked it already in other forum branch.

How realistic do on site www.ultimatepp.org Russian menu on the left, if the person switched to the Russian language in the articles?

Good question

Now two important things are hardcoded in uppweb source:

- Left menu text strings and links: check variable "bi"
- en-us extension. It is everywhere in the program

This means uppweb source has to be changed to have Russian left menu.

This is not very difficult, but it would require some hours from somebody .

Best regards
Koldo
