this info should be placed somewhere in the docu, in things like "how to contribute" or similar. because, frankly, patches are placed in wild forms, plain text, diff, source files etc.. good for users, bad for mirek. time consuming. that should be unified a bit, with a short tutorial how to provide patches etc.. diff preferred.. so mirek can actually review things esier.

Hello Mirek

Answering kohait comments, this:

[http://www.ultimatepp.org/www\\$suppweb\\$bazaar_support\\$en-us.html](http://www.ultimatepp.org/www$suppweb$bazaar_support$en-us.html) is included in Bazaar, but this or something similar could be in main web pages:

Perhaps some new page linked from manual page:

[http://www.ultimatepp.org/www\\$suppweb\\$documentation\\$en-us.html](http://www.ultimatepp.org/www$suppweb$documentation$en-us.html)

If you agree and do not have time to do it I can.
