I uninstalled U++, downloaded v.1952 and reinstalled it using upp_1952_i386.deb. I now get the following errors:

----- CtrlLib (GUI GCC SHARED FORCE_SIZE LINUX POSIX) (1 / 9)
TrayIconX11.cpp
/home/gary/upp/uppsrc/CtrlLib/TrayIconX11.cpp:9:31: error: libnotify/notify.h: No such file or directory

There were errors. (0:02.10)

Every package I try to compile results in the same errors. I'm using Ubuntu v9.10.
