Hello gedumer

I am not en expert in Linux but I try to help .

I could not reproduce your error. It seems that my Stream.cpp file is different than yours.

Please try to download the latest svn version possible (now it is 2014).

My fcntl.h is also very different to yours. I have an Ubuntu 9.04 with gcc 4.3.3.

Also as a last test try to compile in different modes.
