Subject: Re: "Alternative Multithreading" revisited
Posted by Mindtraveller on Tue, 09 Feb 2010 22:37:58 GMT

Did anyone try to use MTAlt? Or it is useless for everyone? Or should I post detailed help about these classes?

P.S. I'd like to update a file in the SVN: /bazaar/MtAlt/MtAlt.h. Please do it someone who has access to bazaar sources.
