Hello Sergei

Please check file index\$en-us.tppi.

To be sure I have:

- Deleted uppweb and downloaded from svn
- Checked the file in upp-mirror

This is the beginning:

TITLE("Ultimate++ is a C++ cross-platform rapid application development framework")

COMPRESSED

<<<<<<< .mine

120,156,172,

This is the end:

>>>>>>> .r2061

The symbols >>>>>>> and <<<<<<< are not part of the file and seem to be added by svn.

If you delete them the package compiles and runs.
