ok. There are 3 big problems. The 1st, as I understand, is coloring some text?  
One of my editor experiments.

```
void DEditor::HighlightLine(int line, Vector<LineEdit::Highlight>& hl, int pos)
{
    HISt hls(hl); //highlights

    int posW0=5;
    int posW1=20;

    if(line == 0 ) {
        hls.SetPaper(posW0, posW1, Red);
        hls.SetInk(posW0, posW1, Yellow);
    }
}
```

If that is useful...
