lundman wrote on Mon, 17 April 2006 23:45Thanks.

PasteText, and indeed Insert, both take RichText. I have not yet been able to find out how to go from String to RichText.

ParseQTF

Turning off the spellchecker... not possible? Can't even change colour, they are hardcoded as Red/LtRed.

Set language of your text to "none". (In qtf - "[%00-00 ")
