Hello.

I've got problem with DropDate function. When I select new date from Calendar I got invalid date. Calendar returns Time instead of Date.

How can I solve this problem?

Thanks, Radek

```
#include <CtrlLib/CtrlLib.h>
```

```
using namespace Upp;
```

```
GUI_APP_MAIN
```

```
{  
    TopWindow win;  
    DropDate dd;
```

```
    dd <<= GetSysDate();
```

```
    win.Add(dd.HSizePos().TopPos(0, Ctrl::STDSIZE));
```

```
    win.Run();
```

```
}
```
