tojocky wrote on Fri, 19 March 2010 23:22Maybe refresh method of Ctrl work?No, it doesn't.

tojocky wrote on Fri, 19 March 2010 23:22If you want to re-enable drop list the the state of ctrls need to change to initial state! Actually I want to disable additional SubButtons when I disable DropList.

I hope someone who knows how Ctrl is drawn when it's parent is disabled will tell how to disable DropList SubButtons.
