Problem 6 already feasible, code was on UWord example, and it works quite well.

For point 1, I'd like to know if there's a way to find the zoom factor to make fonts appear in real
sizes on screen... the rest is simple.

Issue 5 implemented.

Issue 1: About "real sizes", please, let us not start this again.... (search the forum for previous
debates).

Issue 2: Alerting Tom..
