I haven't tested with all the fonts but this works:  
in Editor.cpp (RichEdit package) around line 580

```
/*
ff.Add(Font::ARIAL); //comment 3lines
ff.Add(Font::ROMAN);
ff.Add(Font::COURIER);
*/
//add 2 lines below ("font enumerator")
for(int i = 0; i < Font::GetFaceCount(); i++)
    ff.Add(i);
FontFaces(ff);
```
