Downloaded Dependency Walker (depends.exe)
<http://dependencywalker.com/>

Running this on HelloWorld.dll
MSVCR90.DLL cannot be found
That is in the Microsoft Visual C++ 2008 Redistributable Package
<http://www.microsoft.com/downloads/details.aspx?familyid=9B2DA534-3E03-4391-8A4D-074B9F2BC1BF&displaylang=en>

It is not included in the links provided when installing Upp, I left the Redistributable selected but it was not in there, I may be wrong on this.

I added this to my PATH:
C:\Program Files\Microsoft Visual Studio 9.0\VC\redist\x86\Microsoft.VC90.CRT

depends.exe finds MSVCR90.DLL but "java HelloWorld" now gives this error:
R6034
An application has made an attempt to load the C runtime library incorrectly

I tried copying MSVCR90.DLL to the same directory as HelloWorld.dll and got the same error.
