sergeynikitin wrote on Wed, 07 April 2010 03:42Hi Luigi!

I looked at the code, code - perfect. The whole thing was in the wrong QTF.

Thank you!

It works now. I am sorry for the false allarm.

Just a little note. Depending on the height of the template table may happen that it is broken over two consecutive pages. Perhaps it would be better to try to keep it on the same page.

Luigi
