Koldo,

I know that not all french pages are linked in the index page, but it's not the problem I explain.

For example, look at [http://ultimatepp.org/www\\$suppweb\\$examples\\$fr-fr.html](http://ultimatepp.org/www$suppweb$examples$fr-fr.html) : The text introducing the reference examples between the two tables is missing, though the text is in the file [www.tpp/reference\\$fr-fr.tpp](http://www.tpp/reference$fr-fr.tpp). And the [www.tpp/reference\\$fr-fr.tppi](http://www.tpp/reference$fr-fr.tppi) was not added but should be.

Do you understand better?

Lionel
