I know that not all french pages are linked in the index page, but it's not the problem I explain.

For example, look at http://ultimatepp.org/www$uppweb$examples$fr-fr.html : The text introducing the reference examples between the two tables is missing, though the text is in the file www.tpp/reference$fr-fr.tpp. And the www.tpp/reference$fr-fr.tppi was not added but should be.

Do you understand better?

Lionel

Yes. It is fixed now.
