The following patch solves the compilation issues with MSC10 compiler:

```
uppsrc\Core\Core.h(299): #if !defined(STLPORT) -> #if !defined(STLPORT) && _MSC_VER < 1600
```

```
uppsrc\Web\socket.h(132): #define SOCKERR(x) COMBINE(WSA, x) -> #define SOCKERR(x) WSA##x
```

P.S. Additional warnings takes place:
