A very small fix and a question.

- After last changes line "const char *fs = "
Software\\Microsoft\\Windows\\CurrentVersion\\Explorer\\Shel l Folders" in FileSel.cpp seems not to be necessary.

Thanks, removed.

Quote:
- I wanted to set "file" field before an ExecuteOpen() to be the by default file, but I do not know how as Update() function deletes it:

I believe that what you are looking for is "PreSelect".

Mirek

Xcellent!
