Subject: SSL patch
Posted by tojocky on Fri, 04 Jun 2010 11:51:19 GMT

Hello,

When I test with the latest openssl version (1.0), I can't to compile sources from u++ because need to made some changes in httpscli.cpp.
The problem was: need to convert from "const SSL_METHOD *" to "SSL_METHOD *". I used static_cast<SSL_METHOD *>.

The plain text file for changes i was attached.

I hope if it is useful.
