thickness, maybe something like that??

TabBar.cpp:139

```
void TabScrollBar::Paint(Draw &w)
```

```
...
```

```
if(total > sz.cx) {  
    p = Point(ffloor(pos), 1);  
    rsz = Size(fceil(size), barwidth);  
}
```

```
else {  
    p = Point(0, 1);  
    rsz = Size(sz.cx, barwidth);  
}
```

```
...
```

```
//.h
```

```
void SetBarWidth(int w) { barwidth = w; LayoutRefresh(); }
```
